About

Motivated and passionate self taught programmer, ready to take on new challenges. My current goal is learning new techs, being part of awesome projects and form incredible teams.

Projects

CRYPTO NEWS APP

Javascript - React

Cooperative Crypto App made with React, Chart.js, News API and CoinGecko Api. Styled with Chakra UI (Source Code available in Portfolio).

WEATHER APP

Javascript - React

Weather App made with React, OpenWeather API and Geolocation API. Styled with Chakra UI and deployed with Firebase (Demo and Source Code available in Portfolio).

CUSTOMER RELATIONSHIP MANAGEMENT

Python - Django

Customer Relationship Management project, where you can manage your agents and assign them leads (Demo and Source Code available in Portfolio).

WEB SCRAPING

Python and MySQL

Crypto scrape script where data is stored on a local MySQL Database. Daily and hourly variations calculated. BeautifulSoup, mysql.connector and Schedule libraries where used on this project.

Education
